Certificate of Conformance - SAMPLE

Certificate Issue Date: 1st May 2020

The items referenced above, have been manufactured, inspected, tested and supplied in accordance Active Silicon's ISO 9001 accredited procedures, and in accordance with the appropriate specifications and terms and conditions of the purchase order.

Furthermore, unless otherwise stated above, Active Silicon makes the following declarations and policy statements:

Active Silicon declares that items listed above are CE marked in accordance with the relevant EU Directives. These include the RoHS and EMC Directives as stated below.

RoHS Active Silicon declares that the items listed above conform to the requirements of RoHS3, the European Union's Restriction on Use of Certain Hazardous Substances (RoHS) in Electrical and Electronic Equipment Directive 2015/863(RoHS).

EMC Electromagnetic Compatibility (EMC) is the ability of electronic devices to operate as intended in the proximity of other electronic devices or in the presence of electromagnetic fields. Active Silicon declares that the items listed above conform to EU Directive 2014/30/EU Electromagnetic Compatibility when used as instructed, which may include fitting into a suitable enclosure.

REACH Active Silicon is aware of the requirements of REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC 1907/2006), the European Union's chemical substances regulatory framework, and declares that to the best of its knowledge the items listed above do not contain substances listed on the Candidate List of Substances of Very High Concern, as updated from time to time, in a concentration above 0.1% weight by weight. Further details of the methods and evidence to make this declaration can be found in the Active Silicon REACH Compliance Statement available on the website.

UL Active Silicon declares that any PCBs (printed circuit boards) used in the above listed items are made by UL (Underwriters Laboratories) certified manufacturers and have a flammability rating of 94-VO. The 94-VO symbol is printed on the PCB to show compliance.

Active Silicon declares that the items listed above comply with the FCC Rules for Class A digital devices when used as instructed, which may include fitting into a suitable enclosure.

Standalone declarations and policy statements for the above as well as other areas such as Conflict Minerals and Counterfeit Components Policy can be found on our website at: www.activesilicon.com/company/certifications-accreditations
