

## Harrier 40x AF-Zoom IP Camera

We proudly launched our range of IP Ethernet autofocus-zoom block cameras earlier this year. The technology has now been added to our most powerful autofocus-zoom camera to create the **Harrier 40x AF-Zoom IP Camera**.

The camera provides a low latency H.264 video stream over RTP, is fitted with a Sony STARVIS sensor and features an impressive 40x optical zoom.

## Harrier 40x AF-Zoom IP Camera

### Features and Benefits

- 1/2.8-type 2MP Sony STARVIS sensor
  - Powerful 40x optical zoom
  - Low latency H.264 RTP streaming video
  - Onboard recording
  - WiFi support option
  - Easy connection to standard PCs and Ethernet infrastructure
  - Industry standard camera control interface (ONVIF)
  - Software examples available
-

## Flexible options - Harrier AF-Zoom camera range

The **Harrier IP Camera Interface Board** can be tightly mounted to a wide range of high-quality Full HD autofocus-zoom cameras. These versatile units are ideal for applications in networked **surveillance**, **industrial inspection**, **medical imaging** and **remotely-operated vehicles**, amongst others. They support real-time imaging from airborne drones to underwater AUVs and provide high-speed, high-resolution video streaming at 1080p30 Full HD output.

Watch the video for more information, and [get in touch](#) to see which **IP camera solution** is right for you.
