

[AF-Zoom cameras with 55x and 52x optical zoom added to Harrier range](#)

The Harrier range just keeps expanding! The newest arrivals offer our greatest zoom options yet with powerful 55x and 52x optical zoom.

The [Harrier 55x AF-Zoom Camera](#) is a 5MP high-resolution camera with a powerful 55x optical hybrid zoom. The camera offers Full HD real-time video output at 1920 x 1080p (30 fps), and is available with LVDS, Ethernet IP, HD-SDI, HDMI and USB/HDMI video output options.

The IP camera variation is available with WiFi and PoE (Power over Ethernet), further enhancing the functionality of this versatile block camera.

Our [Harrier 52x AF-Zoom IP Camera](#) is a Full HD autofocus-zoom camera with three streams of Ethernet IP H.265/H.264 output. It benefits from an exceptional 52x optical zoom, fast focus and a stable image performance and features a 2MP Sony CMOS sensor.

[Low latency IP video streaming](#)

Both IP output cameras, the Harrier 55x and the Harrier 52x AF-Zoom IP Camera, support ONVIF services and serve a system administration website. Ethernet IP imaging systems require low latency video streaming so Harrier IP camera hardware and firmware have been optimized to reduce latency to a minimum.

View all the specs of our [Harrier 55x AF-Zoom Camera](#) and [Harrier 52x AF-Zoom IP Camera](#) on our website or [contact our team](#) today to find out more.

[Key features of Harrier AF-Zoom Cameras:](#)

- Full HD or 4K resolution
- LVDS, 3G/HD-SDI, HD-VLC, USB 3 (UVC), HDMI and IP (Ethernet) video output options
- Compact and lightweight models
- Long distance HD video transmission technology (HD-VLC, EX-SDI)
- Global shutter or rolling shutter options
- Advanced features such as enhanced image stabilizer and day/night mode

[Suitable applications](#)

Applications for these autofocus-zoom cameras include [UAV](#) and [ROV](#) projects, [remote inspection](#), surveillance & [law enforcement](#), military & [defense](#) and [medical imaging](#). The choice of powerful zoom combined with compact models and high reliability means that we've already had unprecedented interest in these latest cameras.
