

## Discover the latest Sony technology

The **FCB-EV9520L block camera** from Sony features a **30x optical zoom** lens and a **high sensitivity color sensor** to capture high-quality images even in very low-light scenarios. It provides **Full HD video** up to 1080p60 in LVDS video output format.

**Harrier camera interface boards** from Active Silicon provide additional video output options by converting the LVDS output into **3G/HD-SDI**, **HD-VLC** for long cable length solutions, high-quality analog, **USB (UVC)** or **Ethernet IP**.

The camera is a direct replacement for the FCB-EV7520/A series with the same dimensions and offering several improvements, including higher low-light visibility and a Super Image Stabilizer. It features several advanced functions like Spot Focus, ICR, color image acquisition, Wide Dynamic Range and many more.

The Sony FCB-EV9520L can be dropped into existing vision systems or designed-in to new setups. Its compact size and outstanding features make it ideal for **surveillance, medical imaging, surveying and remote monitoring** as well as use on **UAVs, ROVs and AMRs**.

## Advanced features

The Sony FCB-EV9520L offers a range of sophisticated benefits including:

- High performance 30x optical zoom, 12x digital zoom
- Full HD 1920 x 1080p60 output
- HD Digital image output (LVDS)
- 1/2.8"-type 2MP STARVIS 2 Sony CMOS image sensor
- Dimensions (L x W x H): 89.7 x 50.0 x 60.0mm
- Compatible with all Active Silicon Harrier camera interface boards for extended output options
