

Visit us at UKIVA's Machine Vision Conference!

Our team are once again preparing to meet customers and suppliers face to face as the **UKIVA Machine Vision conference** returns as a physical event. The show in **Milton Keynes, UK**, will run on **28th April** and Active Silicon is excited to be involved.

The event comprises over 50 **exhibitors** and a packed **agenda** of talks focussing on the latest machine vision trends including machine learning, 3D vision and robotics.

Active Silicon products showcased

We'll be bringing examples of our state-of-the-art **AF-zoom camera solutions**, CoaXPress and Camera Link **frame grabbers**, **embedded systems** and **high-performance PCs**.

FireBird frame grabber

Live demonstration

A **live demonstration** will be showcasing our high-speed **CoaXPRESS frame grabber** displaying live images from 4 cameras simultaneously.

Known for its fast acquisition and high-volume processing capability, **CoaXPRESS** is more robust and reliable than other interfaces and allows for long cable lengths. Learn what benefits it offers for your industrial inspection or automated vision system.

[More on our products](#)

Register now and we'll see you there. If you can't join us, **contact us** to understand how our innovative products can add speed and quality to your vision application.

What's up next?

Meet us at the VISION Show

In autumn Active Silicon will again have a stand at **VISION** in Stuttgart. Pay us a visit to discuss your imaging challenges with our team in person and see live demos of our products.

We are looking forward meeting you!

Active Silicon is a leading manufacturer of imaging products, embedded systems and custom solutions. If you would like to stay informed of upcoming events, products and news in general, then please follow us on one of our social media channels below.
