Zoom in for a closer look!

The new **Harrier 10x AF-Zoom Camera** is a **compact, low power camera** with real-time full HD video output. Featuring a 2MP Panasonic progressive scan CMOS sensor, it's the **best value 10x autofocus-zoom camera** on the market!

Small but mighty

This small block camera measures only 43 x 44 x 62.4mm and weighs 112g. It offers up to 1080p60 Full HD video output and many sophisticated camera features that are listed on our [camera product page](#). The camera can be controlled using VISCA protocol serial communications or Pelco – D/P Control Protocol.

Several video output options

As part of our extensive Harrier range, the camera is available with LVDS, USB, HDMI, 3G-SDI and H.264 IP output options.

Our **Harrier 10x AF-Zoom USB/HDMI Camera** offers simultaneous display of both **HDMI and USB Video Class (UVC) v1.1 output**. Additionally, the camera is available with just **HDMI output**.

The **Harrier 10x AF-Zoom 3G-SDI Camera** features real-time **3G-SDI video output** and 10x optical zoom. It offers 3G-SDI, HD-SDI and HD-VLC™ video outputs, making it ideal for applications which demand ultra-small, high-definition and long-reach video transmission.

Coming very soon ... the **Harrier 10x AF-Zoom H.264 IP Camera** is based on a powerful SoC processor that delivers a low latency **H.264 video stream over RTP**. **Contact our team** for more information.
