

Product Change Notification

Title:	Update to FireBird CoaXPress 2PE8
Our reference:	PCN-AP20-0022-01
Date:	1 December 2020
For further information contact:	Email: sales@activesilicon.com Europe: +44 (0)1753 650600 USA: +1 410-696-7642

Product(s) affected:	Active Silicon products affected by this change: <ul style="list-style-type: none">AS-FBD-1XCXP6-2PE8(-xxx)AS-FBD-2XCXP6-2PE8(-xxx)AS-FBD-4XCXP6-2PE8(-xxx) <i>(where the optional '-xxx' indicates versions dedicated to specific customers)</i>
Description of change:	The change is a result of the obsolescence of one IC used in the PCI Express clock circuit. This has been changed to a new part. At the same time some minor changes have been made to minimize the need for future updates to the boards. Some changes have also been made to ease production of some dedicated customer versions.
Affect that change has on operation:	No affect on the fit, form or function apart from the board properties (which can be read from software) show the 'PCB Revision' as '04'. For the previous version this was '03'.
How to identify original and changed product:	The issue number as shown on both the label on the box and the board will change to ISS 04. For most customers the previous version was ISS 03AB.
Date that changed product will be shipped:	We expect the first issue 04 boards to ship in July 2021.
