Active Silicon have secured a limited final stock of MP1110M Tamron cameras and we are offering customers a Last-Time-Buy (LTB) to place final orders. Once this camera stock is exhausted the products listed above will no longer be for sale. Although we will make every effort to fulfill LTB orders, the acceptance of these orders is subject to product availability. We encourage customers to contact Active Silicon as soon as possible to discuss their LTB requirements.

Last Time Delivery Date:	<p>This will depend on product availability but our last delivery of MP1110M cameras is scheduled for October 2021. Suggested alternatives:	<p>For MP1110M-VC/MP based products Active Silicon are creating replacement products based on the Tamron MP1010-VC/WP camera.</p> <p>e.g. AS-CIB-HDMI-001-1110WP-A -> AS-CIB-HDMI-001-1010WP-A</p> <p>For replacement of the MP2030M-GS camera and MP2030M-GS based products we recommend the AS-CAM-36LGHD-A global shutter camera and corresponding AS-CAM-36LGHD-A based Harrier products.</p> <p>e.g. AS-CIB-HDMI-001-2030-A -> AS-CIB-HDMI-001-36LGHD-A</p>
Direct replacement:	<p>There are no direct replacements for the EOL products but the suggested alternatives above are very similar and will be suitable as replacements for most applications. Please consult the camera technical reference manuals for more information.</p>
